Your Journey to A New Smile

Step 1: The Consultation

Your journey begins with a detailed consultation to discuss your goals, evaluate your dental health, and determine if All-On-4 is the right solution for you.

Step 2: Pre-Sedation Appointment

- What to Expect: 3D scans and images will be taken to create a precise treatment plan
- Duration: Approximately 2 hours
- Next Steps: Once this appointment is complete, we can schedule your surgery. If medical clearance is required, it must be obtained before booking

Step 3: Surgery Day

- What to Expect: Dental implants are placed, and temporary dentures are securely attached to give you a functional and attractive smile during the healing process
- Duration: Typically a same-day procedure

Step 4: Post-Surgery Check-Ups

- 2-Week Post-Op Appointment: We'll check on your healing process and address any questions or concerns
- 2-Month Post-Op Appointment: Another check-in to ensure implants are healing properly and you're adjusting well

Step 5: Try-In Appointment

- Timeline: Approximately 4 months after surgery
- What to Expect: Temporary teeth are replaced with a customized set of teeth designed just for you. Adjustments to the look and feel can be made at this stage

Step 6: Follow-Up Appointment

- What to Expect: Two weeks after your Try-In, we'll check your satisfaction with the new teeth
- Adjustments: Follow-ups will be scheduled to ensure you're completely happy with your teeth

Step 7: Final Delivery

- Final Scans: After any adjustments are complete we will take final scans to create your permanent crowns.
- Delivery of Final Teeth: Your new, permanent smile will be securely placed, giving you a lasting solution you'll love
