Benefits of A One Stop Shop Experience

Faster Turn Around Times:

No waiting weeks for your new smile. With our in-house lab we can craft your implants quickly and efficiently—often in only a fractions of the time

Precision & Customization:

We are hands on at every step, and your implants are tailored with accuracy to facial structure and aesthetic goals resulting in a better fit, function, and appearance

Seamless Communication:

Dr. Klein, lab techs, and surgical staff work side by side to ensure nothing is 'lost in transition', allowing easy and accurate communications between all team members as well as our patients

One Location– One Team

From your initial consultation, to surgery, and through your final restoration you are cared for one trusted team that feels like family

Comfort & Safety

Our modern surgical suite was designed for precision procedures in a comfortable, sterile, and stress-free environment

Better Care, Fewer Visits, Faster Results
